FOR IMMEDIATE RELEASE

## JUNIOR CHAMPION AND RISING STAR OF CHINA'S RACING SCENE JOINS THUNDER POWER RC TEAM

Thunder Power RC signs J.J. Wang as the newest addition to the racing team.

**LAS VEGAS, NV. May 14, 2012** –Known throughout China as one of the rising stars of modified touring car and off-road racing, 14 year old J.J. Wang signs to represent Team Thunder Power RC. J.J. may be relatively new to the electric powered (EP) racing scene, but is known in the nitro racing scene and as China's youngest competitive driver. At the age of 11, J.J. was recognized by winning the Tamiya Asia Cup Junior Championship.

J.J. has launched his EP career with a 4<sup>th</sup> Place finish in the 4WD class at the last TITC race. Stepping up his game, powered by Thunder Power RC, J.J. recently won the EP 4WD Short Course Truck and 2WD Buggy classes at the Horizon Hobby Cup. J.J. will run Thunder Power RC Z3R motors and batteries to power his 2012-2013 racing season.

J.J. shared his thoughts on his partnership with TPRC, *"I'm very motivated and excited to join the Thunder Power RC team. I think their products have very high quality and I'm looking forward to using them the upcoming season.*

J.J. will represent the TPRC Team in China and at various International and US electric/LiPo events. Thunder Power RC would like to welcome and thank J.J. for trusting in Thunder Power RC to be the power behind his recent podium level performance. You can catch J.J.'s next race powered by Thunder Power at the Invitational Reedy Race of Champions in Union City, California starting May 24, 2012.

### About Thunder Power RC

Since 2003, Thunder Power RC has been the world-leader in the advancement of Lithium Polymer (LiPo) battery power and charging solutions for a wide variety of RC, UAV/UAS and other applications. Continuing to set industry-leading standards in performance and reliability is why more pilots, drivers and professionals world-wide choose Thunder Power RC LiPo batteries over any other brand.

*Thunder Power RC, # 1 in Performance and Reliability*
