

THUNDER ⚡ POWER RC

FOR IMMEDIATE RELEASE

JORN NEUMANN SIGNS AND WINS WITH THUNDER POWER RC

Just after joining the Thunder Power RC team, Jörn Neumann TQ'd and won at the JConcepts Clash powered by TPRC.

LAS VEGAS, NV. December 14, 2011 – Multi-time, European Off-road Champion and Team Durango driver Jörn Neumann signed an exclusive sponsorship contract for 2012 for the use of TPRC batteries and chargers. The twenty year old from Germany has been a top contender at several major off-road events around the world. Thunder Power is happy to announce the addition of Jörn to our talented team of drivers. Jörn stated, "I am really happy to join the Thunder Power RC team and to use the batteries in all of my cars. When I tried TPRC batteries, I was impressed by the performance. TPRC LiPo batteries are a must have for every racer."

Jörn raced for the first time representing team TPRC at the JConcepts Clash last weekend in Florida. Powered by TPRC batteries and charger, Jörn TQ'd and won the 1/8th Electric Buggy and 1/10th 4WD Buggy classes. Jörn won racing with the new G6 Pro Race 65C 6000mAh 2S (TP6000-2SPR65) batteries in his 1/8th Buggy, the new G6 Pro Race 5000mAh 65C (TP5000-2SPR65S) Saddle packs in his 10th 4WD Buggy and charged them with the TP820CD Dual port charger.

We would like to congratulate Jörn on his victories at the JConcepts Clash. Jörn joins a top group of drivers from Thunder Power and will play an integral part in expanding into the highly contested off-road market. Jörn's next big event will be at the 2012 Reedy Race of Champions in January.

About Thunder Power RC

Since 2003, Thunder Power RC has been the world-leader in the advancement of Lithium Polymer (LiPo) battery power and charging solutions for a wide variety of RC, UAV/UAS and other applications. Continuing to set industry-leading standards in performance and reliability is why more pilots, drivers and professionals world-wide choose Thunder Power RC LiPo batteries over any other brand.

Thunder Power – # 1 in Performance and Reliability
