

THUNDER ⚡ POWER RC

FOR IMMEDIATE RELEASE

Multi-Time National Champion of Sweden -- Magnus Vassmar Joins Team Thunder Power

Magnus Vassmar the Multi-Time National Champion of Sweden signs to compete with TPRC motors, batteries and chargers.

LAS VEGAS, NV. December 30, 2011 – Multi-Time, Swedish National Champion Magnus Vassmar has joined the Thunder Power Racing team for 2012. Magnus has proven his skills as a top contender placing in the top positions at several large events such as IIC, ETS, DHI Cup, and LRP Masters. Magnus will be using Thunder Power Z3R motors, Pro Race batteries and the Thunder Power 820CD charging system. In 2011, Magnus successfully won several National events in his home country of Sweden powered by Thunder Power RC.

In addition to joining the TPRC team, the Vassmar Family business Autopartner will be distributing and selling Thunder Power products in Sweden.

"I'm very motivated and excited to join the Thunder Power RC team and I hope to contribute with some good results," states Magnus Vassar. "I think their products have very high quality and I'm looking forward to using them the upcoming season. I would like to thank everyone at Thunder Power for this opportunity to be part of a already successful group of drivers."

Thunder Power RC would like to welcome and thank Magnus for his confidence in our team and products. We are proud to be the power behind his Championship racing skills. We anticipate that Magnus, and our other team members, will continue to push the limits of electric power systems and help to continue to push TPRC product development to the next level!

About Thunder Power RC

Since 2003, Thunder Power RC has been the world-leader in the advancement of Lithium Polymer (LiPo) battery power and charging solutions for a wide variety of RC, UAV/UAS and other applications. Continuing to set industry-leading standards in performance and reliability is why more pilots, drivers and professionals world-wide choose Thunder Power RC LiPo batteries over any other brand.

Thunder Power – # 1 in Performance and Reliability
